

# Foundation Training Job Description

Grade	F2
Placement	Cardiothoracic Surgery
Department	<p>The Department of Cardiothoracic Surgery at Castle Hill Hospital is a tertiary referral centre covering an extended population of 1.3 million people, and a local population of approximately 650,000. It provides the full diagnostic and treatment for all acute and chronic adult cardiac and thoracic conditions.</p> <p>The surgical services works closely with Cardiology in an integrated purpose built, state of the art £45 million DOH funded Centre for Cardiology and Cardiothoracic Surgery which opened in 2009. This has 3 dedicated Cardiothoracic Theatres with new outpatient wards 26 and 27 and 2 HOBs with access to a 12 beds ITU. We also work very closely with the Respiratory department in the care of cancer patients and benign lung disease.</p>
The type of work to expect and learning opportunities	<ul style="list-style-type: none"> <li>• To build upon undergraduate education.</li> <li>• To gain experience and familiarity in dealing with a wide variety of medical conditions.</li> <li>• To develop the skills of history taking, physical examination, appropriate investigation and rational prescribing.</li> <li>• To master several basic medical techniques.</li> <li>• To improve communication skills with patients, relatives and colleagues.</li> <li>• To develop skills in managing time and conflicting priorities.</li> </ul> <p>At the end of the four month period the FY2 will have obtained experience in the following:</p> <ul style="list-style-type: none"> <li>• Diagnosing a wide range of common conditions</li> <li>• Treatment of a wide range of common conditions</li> </ul>

	<ul style="list-style-type: none"> <li>• Management of a wide range of common conditions</li> </ul> <p>Trainees will be given audit topics to prepare at the start of their work in the department.</p>
Where the placement is based	Castle Hill Hospital
Educational and Clinical Supervisor(s) for the placement	<p>Mr Mahmoud Loubani          Mr Mubarak Chaudhry          Mr Michael Cowen          Mr Alex Cale          Mr Martin Jarvis</p>
Main duties of the placement	<p>Along with the Core Surgical Trainees the F2 doctors will be responsible for the first on-call to the ward patients. The post-holder will attend ward rounds and be expected to implement the decisions from those rounds. The post-holder will be responsible for the post-operative care or cardiothoracic patients on the ward but have opportunities to attend clinics, theatre and regular teaching sessions.</p> <p>The rota is a full shift rota with cross cover for Cardiology. The average contracted hours must not be exceeded. However, in exceptional circumstances, practitioners in the grades of Senior Registrar, Specialist Registrar, Core Medical Trainee and Foundation Doctors shall be expected to cover for the occasional brief absence of colleagues as far as is practicable. Sick colleagues will normally be covered only for short periods of absence.</p> <p>In addition practitioners will be prepared to perform duties in occasional emergencies and unforeseen circumstances without additional remuneration but may be granted time off in lieu at the discretion of the employing trust. Commitments arising in such circumstances are, however, exceptional and the practitioner should not be required to undertake work of this kind for prolonged periods or on a regular basis.</p>
Typical working pattern in this placement	Typical working pattern in this post e.g. ward rounds, clinics and theatre sessions.
Employer	Hull and East Yorkshire Hospitals NHS Trust
