

Foundation Training Job Description

Grade	Foundation Year 1
Placement	Surgery
Department	<p>There are 10 Consultant Surgeons / Associate Specialist together with Specialist Registrars, Core Surgical Trainees, Foundation Trainees and Advanced Nurse Practitioners. The department provides a wide range of inpatient and day case procedures plus emergency General Surgery. There are opportunities in General Surgery, Colorectal, Breast and Upper GI. The department has an excellent reputation for laparoscopic surgery and performs significant numbers of laparoscopic colorectal resections, groin and ventral hernia repairs and Nissens Fundoplication's each year. The department can also offer trainees experience of complex abdominal wall reconstruction and both delayed and immediate breast reconstruction. A brand new Surgical Assessment Unit is being developed to provide very rapid consultant led assessment and management of acute admissions to the unit. It is anticipated that this will be in place by August 2018.</p>

<p>The type of work to expect and learning opportunities</p>	<p>The Department of Health, through its policy of Modernising Medical Careers, has set out the educational content of the two year foundation programme to be pursued by newly qualified doctors in the United Kingdom. A curriculum has been set out describing the key knowledge, skills and attitudes that must be achieved by junior doctors before they progress onto specialist training.</p> <p>The Postgraduate Dean has confirmed that these posts have the required education and staffing approval. All of the rotations will run in association with Deanery staff, who will support a structured appraisal and assessment process that will allow successful applicants to make the most use of available opportunities. Ten mandatory educational days are included in the Foundation Programme.</p> <p>The GMC emphasise that it is a duty of all doctors to be involved in the education and training of doctors at all levels, including undergraduate level.</p> <p>In more recent years emphasis has been placed on the need for doctors to be trained in educational approaches in order to prepare them for their role as an educator in the future. Foundation training is about gaining generic skills which can be applied across all specialties and throughout an entire career.</p>
<p>Where the placement is based</p>	<p>The Rotherham NHS Foundation Trust</p>
<p>Educational and Clinical Supervisor(s) for the placement</p>	<p>The Educational Supervisor of your first post will maintain that role for the duration of your F1 Programme.</p> <p>The Clinical Supervision will be confirmed by the Trust prior to the commencement of the post</p>

<p>Main duties of the placement</p>	<p>Day to day management of patients under consultant care.</p> <p>On call duties as required under the hospital at night system.
