

Foundation Training Job Description

Grade	F2
Placement	Medical Oncology (WPH)
The type of work to expect and learning opportunities	<p>The F2 is ward based and is responsible for the care of all consultants patients on that ward. The work involves close contact with all staff and liaison with other departments including therapeutic and diagnostic radiotherapy, chemotherapy staff, palliative care teams, allied health workers (eg. Occupational therapists, physiotherapists and dieticians and social workers).</p> <p>The duties include responsibility for the day to day care of in-patients, including routine clerking of patients on chemotherapy or receiving radiotherapy, and patients admitted as emergencies for symptom management of disease or toxicity from treatment and investigations, including minor procedures such as paracentesis, and lumbar punctures. The rota includes time spent on the emergency assessment unit where you are responsible for initial management of emergency admissions.</p> <p>A consultant led ward round takes place daily to review all emergency admissions from the previous 24 hours – which gives excellent educational opportunities. Attendance at consultant ward rounds is expected. You will be assigned a clinical supervisor during the placement and time is scheduled within the placement to attend outpatient clinic, radiotherapy and theatres sessions or MDTs. Weekly lunch time oncology specific teaching is offered by the Specialist Registrars, and weekly attendance at PGME is encouraged.</p>
Typical working pattern in this placement	The F2 is on a 1:29 full shift rota incorporating the H@N rota – covering the RHH and WPH as part of a wider on-call team. This includes prospective cover.
Employer	Sheffield Teaching Hospitals NHS Foundation Trust

It is important to note that this description is a typical example of your placement and may be subject to change.
