

National Patient Safety Poster Competition 2021 including: Quality Improvement (QI), Education and Innovation projects

Deadline 9th April 2021 - online entry form here:

<http://www.bristolpatientsafety.com/poster-competition.html>

The pandemic has necessitated new approaches to the provision of medical care in unprecedented circumstances. We invite you to share QI projects and projects that encompass learning during this time.

We have up to 100 poster places at our online conference. Successful entries receive:

- An invitation to give a live poster presentation* at our conference on 16th June 2021
- A discounted delegate rate of £159 (no VAT), co-authors entitled to same rate
- National poster competition oral presentation certificate
- Opportunity to win a first or second prize in each themed group of 10 posters
2-minute oral presentation followed by judge-led Q&A

We welcome entries from: junior doctors, nurses, midwives, consultants, AHPs, GPs, medical students and those working in care settings among others

Bristol Patient Safety online Conference

This is an independent conference now in our eighth year, running for the second time virtually.

Conference programme to be announced shortly includes national speakers and workshops run by QI and Patient Safety experts.

2020 online conference feedback - We asked delegates: 'If it was repeated would you recommend the conference to anyone else?' 100% of respondents said YES. We host the conference on the Hopin event platform.
