

Trauma & Orthopaedic Surgery National Recruitment

2021 Preference List

The following pages contain details of the posts which are currently available for you to preference for the Trauma and Orthopaedic Surgery national recruitment process.

Preferences must be submitted on-line by **12:00 on Monday 26 April 2021** using the Oriel system which can be accessed at <https://www.oriel.nhs.uk/Web/>

Information about submitting preferences and receiving offers can be found in the [2021 T&O Applicant Handbook](#). You are advised to read this document thoroughly before submitting your preferences. The Applicant Handbook also includes links to HEE Local Offices/Regions and the Scotland Deanery.

Submitting your Preferences

Please consult the [Oriol Applicant User Guide](#) if you encounter any difficulties selecting preferences via the Oriol system.

There are two lists labelled “Preference” and “Not Wanted”. By default all preferences will appear in the “Not Wanted” list. You can move preferences between the two lists by dragging and dropping individual preferences from one list to the other. Once you have moved preferences to the “Preference” list, you can move them up and down by dragging and dropping individual preferences. You should put your preferences in rank order with your most preferred option at the top of the list and your least preferred option at the bottom. **If you do not complete your preferences before the deadline they will remain in the “Not Wanted” list and you will receive no offers.**

Please note: There is no advantage to be gained by ranking preferences with the most posts high up your preference list. There is also no disadvantage to ranking a preference with few (or even zero) posts high up your list.

If you would be not prepared to accept a particular post, then you should not rank it. By ranking a preference you are stating that you would be prepared to accept that preference. **If you are offered a post and you reject it you will receive no further offers.** It is important that you think carefully about this when completing your preferences and leave any posts that you would not be prepared to accept in the “Not Wanted” list.
