Trainee Out Of Programme Experience- Caroline Fraser

My OOPE experience started with the diploma in tropical medicine and hygiene at the Liverpool school of tropical medicine with a scholarship from the Yorkshire and Humber deanery. This was a fantastic course, taught by experts in the field ranging from tropical diseases, public health and learning basics diagnostic

laboratory skills. I have then come to Myanmar with RCPCH Global Links where I am working in district hospitals teaching and facilitating quality improvement projects. Pre-departure I was also trained in the GIC and am instructing on various resuscitation courses. This is a developing country with lots of tropical diseases and patients presenting very late in their illness. It is full of challenges but very rewarding and enjoyable. I definitely recommend this experience to anyone interested!
