- To recognise the important aspects of pre-operative assessment with particular focus on assessment of the airway
- To improve basic airway skills and be introduced to more advanced airway procedures
- To understand the basic concepts and practical aspects of regional anaesthesia
- To recognise the role of the anaesthetist in areas outside the operating theatre
- To understand the application process to core training including the MSRA
- To gain an appreciation of the new training pathway

**Course Outline**

The “Bridging the Gap - Introduction to Anaesthesia” is aimed at foundation trainees who are considering a career in anaesthesia. The day will involve lectures and small group workshops covering the day to day role and work of an anaesthetist. There will also be the opportunity to gain some hands on experience using various anaesthetic equipment. We will also discuss the process of entry into the training programme.

This day has been very popular when run before so places are likely to fill up quickly.

Sessions:

- What is anaesthesia?
- The anaesthetic machine
- Pre-operative assessment
- Airway assessment and skills – practical session
- Regional anaesthesia – lecture and practical session
- The role of the anaesthetist outside of theatre
- The new training pathway and how to apply

A formal timetable will follow.

Please note a refundable deposit of £45 will need to be paid prior to confirmation of a place.
