

Health Education Yorkshire & Humber Coaching Scheme for Senior & Aspiring Education Leaders

Free Coaching Opportunity for Heads of School, Directors of Medical Education, Associate Deans and Future Education Leaders

HEE Yorkshire and Humber has already demonstrated the significant benefits of providing doctors in training with access to skilled coaches. The region has successfully trained several individuals from within the profession and now has an excellent faculty of qualified and experienced coaches

We are offering individuals up to 6 free coaching sessions over a 6 months period. Coaching is available for our regional senior education faculty and we also invite applications from individuals who have an interest and desire to take on more leadership within this area.

The initial programme will be open to 10 applicants and will start at the end of 2018 and beginning of 2019. As part of this initiative we would require participants to provide feedback on the process as we evaluate the effectiveness of this initiative.

If you wish to apply for a place please contact : coaching.yh@hee.nhs.uk
