Course Title

Awarded by: *RJ Spencer*

Dr J Spencer, Postgraduate Dental Dean

Date

Course Name: DCT1 De-Mystifying Dental Public Health 27FEB25

Course Aims and Objectives

Development Outcomes: This CPD course meets the criteria for the GDC's development outcome(s) A, B, C.

Aims:

To develop Dental Core Trainees' knowledge of the dental public health specialty.

Objectives:

- To develop understanding of core principles of dental public health.
- To describe the structure of the NHS and partner organisations involved in NHS dentistry.
- To give an overview of how dentistry is commissioned and the role of dental public health.
- To participate in a dental public health scenario and peer discussion to better understanding the breadth of the dental public health specialty.

Learning Outcomes:

- To improve knowledge of the core principles and pillars of dental public health.
- To develop the awareness of the key organisations and structures in which NHS dentistry sits.
- To understand the role of dental public health in commissioning NHS dentistry.
- To understand the type of scenarios a consultant in dental public health would receive during a typical working day through participation in scenario practice and peer discussion.

Reflection

Reflection is an important part of CPD. Reflection involves thoughtfully considering experiences, practices, and outcomes to identify areas for improvement and enhance the quality of patient care. More information on reflection can be found on our website.

- What did you learn (or confirm) from the activity that was helpful or relevant to your daily work and patients?
- Did you identify any changes/updates needed in your daily work, and if so, what? How did you make these changes?
- If you didn't identify changes needed, what did the activity confirm for you, that you may already know or be doing?
- What was the benefit to your work and/or your patients in carrying out this activity?
