

# Course Aims and Objectives

**DFT All-Scheme Milestone 1 07FEB25**

**6.5 CPD Hours**

**Development Outcomes: A, B, D. (Milestone, NHSBSA & Dental Public Health)**

**Aims:**

- Milestone: To peer review urgent dental care cases. To develop peer led learning around urgent dental care provision.
- NHSBSA: To build on the base line knowledge that FDs secured by watching the induction video.
- Dental Public Health: To describe the role of dental public health in care systems.

**Objectives:**

- Milestone: To understand the peer review learning process. To understand assessment and diagnosis of urgent dental care cases. To be able to describe treatment options and treatment plan urgent dental care cases. To demonstrate treatment provided and learning. To be able to present cases treated in practice and share treatment outcomes through reflective practice.
- NHSBSA: Describe the NHS rules and regulations that underpin general dental services. Explain the NHS regulations and other professional regulations and guidance that apply to working as a Performer. Identify common pitfalls associated with the dental rules and regulations, and offer strategies for avoiding these
- Dental Public Health: To understand the critical role of dental public health in planning & developing services. To be aware of career opportunities.

**Learning Objectives:**

- Milestone: To be able to manage urgent dental care cases.
- NHSBSA: Describe the NHS rules and regulations that underpin general dental service. Implement the regulations and guidance that apply to NHS General Dental Practice. Formulate strategies to avoid non-compliance with the relevant regulations and guidance
- Dental Public Health: To have a better understanding of dental public health.
