

Course Aims and Objectives

DFT Partial Denture Design 02MAY25

5.5 CPD Hours

Development Outcomes: A, B & C.

Aims:

- Increase confidence in designing removable partial dentures

Objectives:

- To highlight the stages and principles of designing partial dentures
- To discuss considerations in selection of appropriate denture components
- Recognise when tooth modifications may be appropriate in partial denture construction

Learning Outcomes:

- Students will be able to provide appropriate designs for both acrylic and cobalt chrome partial dentures following this course.
