

Course Aims and Objectives

DTFT Milestone 1 06FEB25

4 CPD Hours

Development Outcomes: A, B, C & D.

Aims:

- Provide an opportunity for trainees in Yorkshire and Humber to update colleagues on research and experience achieved during their training programs.

Objectives:

- Raise awareness of the role dental health care professionals have in their local communities, providing support for marginalised and vulnerable patient groups and wider integration into local health care needs.

Learning Outcomes:

- Recognise the role a GDP/Therapist has in providing support for local communities, working in different ways to support inequalities.
- Recognise the leadership role in providing support for patient care, especially in relation to marginalised/vulnerable patient groups.
