

# Educating the Multi-Professional Workforce in General Practice - Roles for GP Educators

Thursday, 11th October 2018 — Leadership Academy, Leeds

09:00– 16:00

## Aims

- Explore the risks, benefits & challenges of developing multi-professional education in a GP setting and develop an implementation toolkit to support educators and practices
- Share solutions.
- Hear and share examples of what works-and what doesn't!

## Objectives

- Collate participant experiences of the risks, benefits & challenges of multi-professional education in primary care.
- Discuss and document solutions and mitigations to the risk and challenges.
- Review the application of Learning Needs Assessment and curriculum design.
- Develop a blueprint for an educational support package to support roll out of multi-professional Education in Practice.
