1. Introduction

Welcome to the Mentoring programme at Health Education England Yorkshire and the Humber. This guide is intended to give you the basic information you need to get started using the Mentoring system.

There are four main phases which are described in this document:

2. Getting an Account and Logging In

2.1. Getting an Account

1. You will be asked to 'self-register' as a Mentee

Please follow the following URL and follow the self-registration process:

<https://heementoring.sfgmentornet.com/User/Register?program=1&role=Mentee>

You will be asked to read and sign the Privacy Notice and Consent Agreement before you can access the system. These notices tell you what your rights are under data protection legislation; they explain how your personal data will be used and who you can contact if you want to correct any mistakes or withdraw your consent. Nobody can access any of your personal data, and you cannot access the system, until you have accepted the Privacy Notice and given your consent.

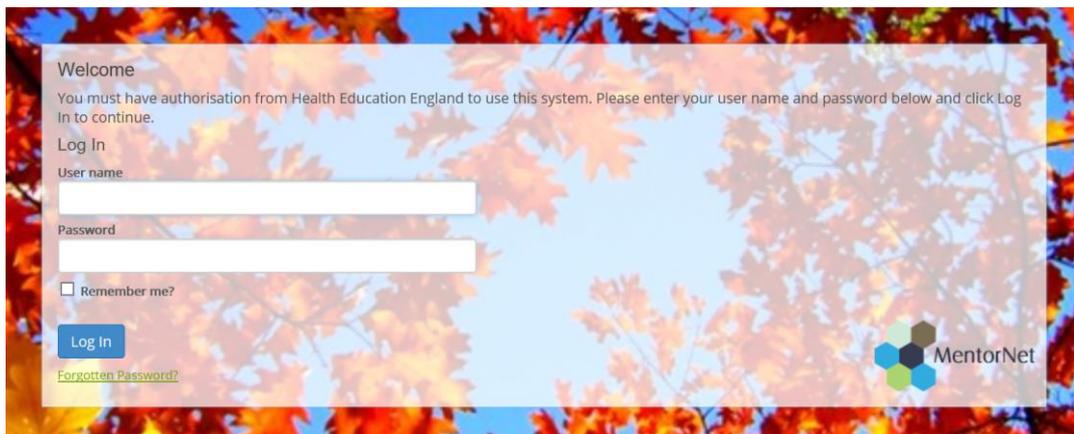

Once you have submitted your self-registration, you will be sent a confirmation email with your account details and you then need to wait for an administrator to authorise your account. This normally takes 2-3 days and you will be sent another automated email once your account has been authorised. You can then login and access your account. Note you will not be able to access your account until the administrator has authorised your account and you have received the email to confirm.

2.2. Logging In

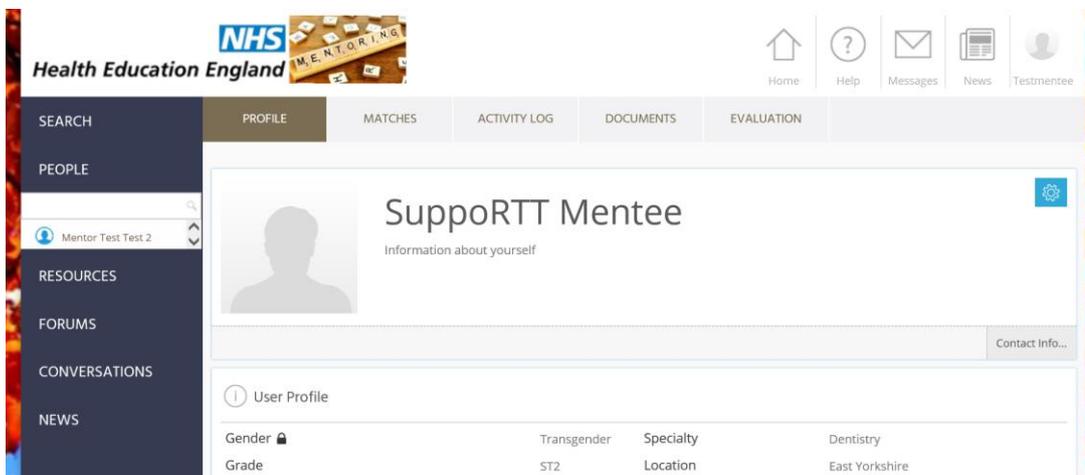

Once you have your login details (see above), you can log in as follows:

1. Open your web browser using any of the common browsers (e.g. Microsoft Internet Explorer, Google Chrome or Firefox).

2. Go to <https://heementoring.sfgmentornet.com/Account/Logon?ReturnUrl=%2FHome%2FIndex>
You will see the following login page:

3. Enter the username and password that you chose during the self-registration process, or which you were sent in the automated email.
4. Once you have logged in, you will see a screen similar to the one below:

Any fields which have the padlock symbol (🔒) against them are 'private' fields – this data can be seen only by you and by administrators. Your mentor and other users cannot see this information.

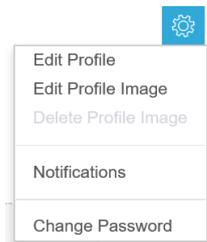

5. Once you have logged in you should update your profile, as per the following section.

2.3. Smartphone Users

You can also access the system through a smartphone. Just go to your standard smartphone browser and use the same URL and user details as above (i.e <https://heementoring.sfgmentornet.com/Account/Logon?ReturnUrl=%2FHome%2FIndex>) You may find it helpful to add a shortcut on your home page; if you're unsure how to do this then you'll find instructions for various types of smartphone under the Resources Section, Useful Documents, on the left-hand side of the screen. Look for the document titled: "Setting up on a Smartphone".

3. Updating Your Profile

Once you have logged in you should update your profile. Most functions to edit your profile are available by clicking on the  icon on the top-right of your user profile screen – clicking on this icon will bring up the following drop-down list of options.

3.1. Changing Your Password

In order to keep your personal data secure, you should change your password to a secure password that only you know. Do this by selecting the “Change Password” option above. Passwords are required to be a minimum of 8 characters in length containing at least 1 uppercase character and 1 number.

3.2. Adding a Profile Photo

You should add a profile photo to make your profile more personal and to help others to identify you. Click on the “Edit Profile Image” and choose an image file to use. You can preview the image and crop/zoom the image to fit. Click “Upload Image” when you are happy with the image.

3.3. Editing your User Profile

If the administrator has created your account for you then you will probably need to add more information to fill out your profile. Or you may just want to edit information you have already added.

Choose the “Edit Profile” option from the drop-down list above. This gives you the following headings:

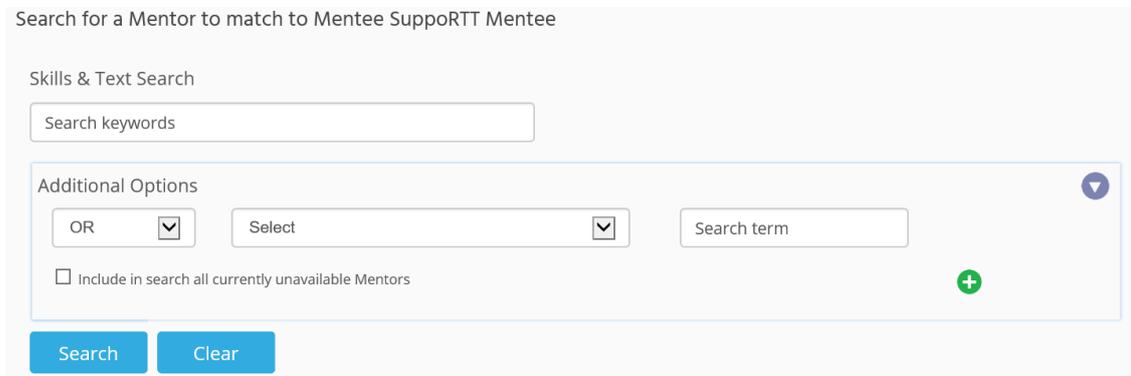

You can expand each heading and edit the detail within.

4. Mentee-led Matching

You are able to search for and request a Mentor. Your Mentor choice is then approved (or rejected) by either the Mentor or the administrator.

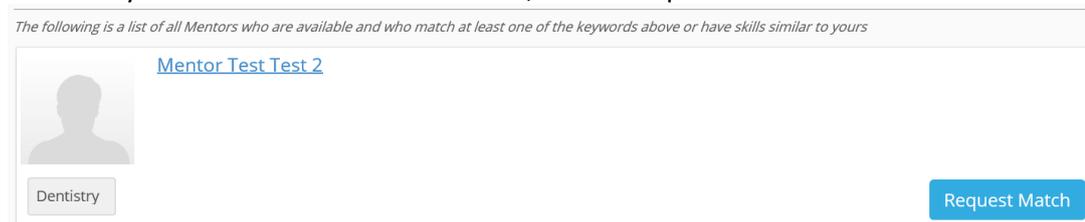

It is possible to view the user profile of any Mentor by clicking on a name under the “People” menu, but it is normally more effective to use the search function located above “People” to search for a Mentor based on keywords.

The screenshot shows a search interface titled "Search for a Mentor to match to Mentee SupportT Mentee". It features a "Skills & Text Search" section with a "Search keywords" input field. Below this is an "Additional Options" section containing a dropdown menu set to "OR", a "Select" dropdown menu, and a "Search term" input field. There is also a checkbox labeled "Include in search all currently unavailable Mentors" and a green plus icon. At the bottom of the search area are "Search" and "Clear" buttons.

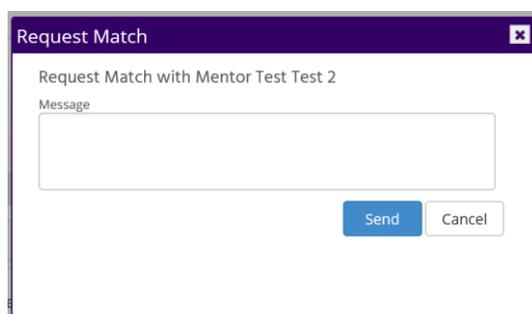

To request a mentor, follow the below steps;

1. Once you have located a mentor either; select ‘Request Match’ as shown below

The screenshot shows a mentor profile card. At the top, it says "The following is a list of all Mentors who are available and who match at least one of the keywords above or have skills similar to yours". Below this is a profile card for "Mentor Test Test 2" with a placeholder image and the text "Dentistry". A blue "Request Match" button is located in the bottom right corner of the card.

or click the Mentor name to access their profile and select  to send a matching request. The below screen will pop up, allowing you to enter additional information.

The screenshot shows a "Request Match" dialog box. It has a title bar "Request Match" and a close button. The main content area says "Request Match with Mentor Test Test 2" and "Message" above a text input field. At the bottom right are "Send" and "Cancel" buttons.

2. Your request will be sent to the Mentor who will then either accept or reject the match request. This process can take a few days.
3. Once your match request has been accepted, you will receive an automated email confirming your match. If your match is rejected, you will also receive an email informing you of this.

5. Useful features within MentorNet

5.1. Home Page

Home

If you ever get 'lost' in the system, clicking the Home Page icon, at the top right of the screen, will take you back to your user profile page.

5.2. Messaging

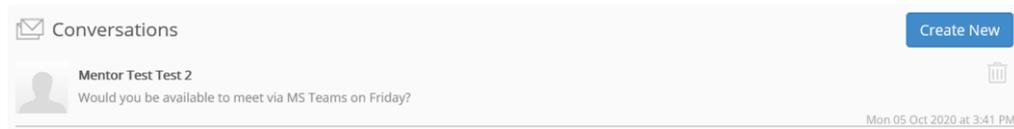

Messaging on the system works in much the same way as messaging in most social media apps. The key difference is that you are assured of confidentiality and security within the system.

To access your messages:

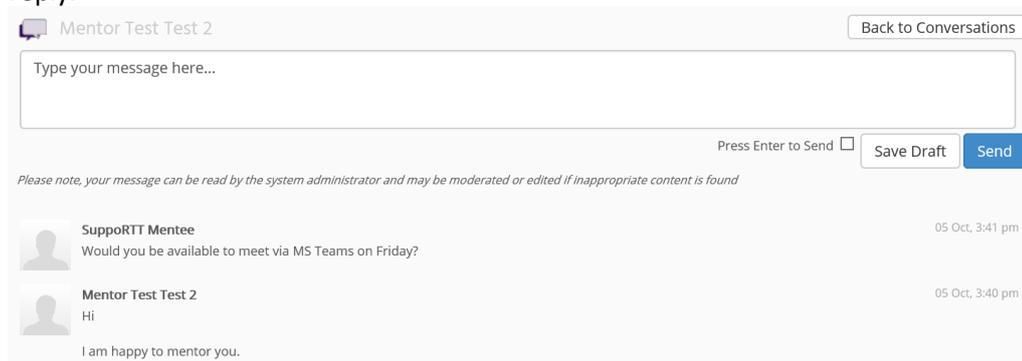

Messages

1. Click on the Messages icon at the top right of the screen. The number highlighted in a blue background indicates if you have unread messages.
2. You will see a list of all the *conversations* you are having with other users.

3. If you click on the conversation, you will see a list of all the messages. You are then able to reply.

Notes:

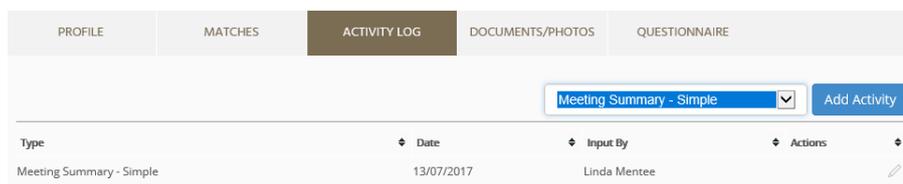

- You can type a draft message, save the draft, and return to it at a later date without sending it.
- Remember you can send/receive messages on your mobile device (see above for instructions on how to setup the system on your phone).
- You will receive email notifications when you receive a new message. Email notifications can be configured so that you can change the frequency of the notifications.
- If you use inappropriate language in your messages, your message may be moderated and edited by the administrator.

5.3. Activity Logs

Your Mentoring programme administrator may expect you to keep records of meetings/conversations you have with your Mentor. You can do this in your account by creating an 'Activity Log'. Sometimes you, the Mentee, will complete the activity log and sometimes your Mentor will.

To view an existing Activity Log:

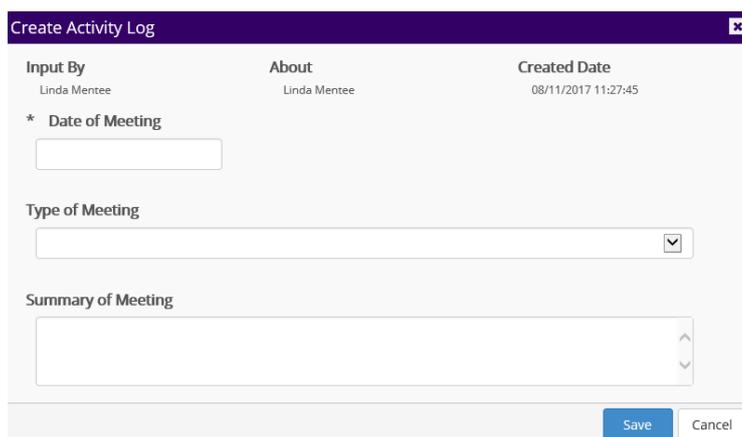

1. Go to your profile and click on the **Activity Log** tab:

2. You will see a list of any activity logs that have already been created and you have the option to add a new activity.
3. You can view/edit an existing activity log by clicking on the pencil () icon at the far right of the activity log entry.

To create a new Activity Log:

1. An example of a simple Activity Log template is as follows:

A screenshot of a 'Create Activity Log' form. The form has a purple header bar with the title 'Create Activity Log' and a close button. Below the header, there are three columns: 'Input By' (Linda Mentee), 'About' (Linda Mentee), and 'Created Date' (08/11/2017 11:27:45). The form contains a required field for '* Date of Meeting' (empty text box), a 'Type of Meeting' dropdown menu (empty), and a 'Summary of Meeting' text area (empty). At the bottom right, there are 'Save' and 'Cancel' buttons.

5.4. Sharing Documents

You may want to share documents with your Mentor, perhaps so that he/she can review the document and you can discuss at your next meeting.

To upload and share documents:

1. Go to your account and click on the **Documents** tab:

PROFILE	MATCHES	ACTIVITY LOG	DOCUMENTS/PHOTOS	QUESTIONNAIRE
Linda Mentee				Upload File
Documents				
Name	Upload Date			
CV - Linda Mentee.docx	22/05/2012 13:26:01			
Training Course Certificate.pdf	22/05/2012 13:26:12			

2. You will see a list of any documents (and photos) that you have already uploaded. You can add new documents by clicking "Upload File".

Note: Documents uploaded here can be viewed only by you, your Mentor, and administrators.

5.5. Resources

The system has a 'Resources' section where you can find documents that your administrator has made available to you. These might be training materials, templates, best practice documents, policies, etc.

You can access these by clicking on the "Resources" heading on the left-hand side under the list of People.

6. Common Problems

6.1. General

If you have any problems or questions about the Mentoring programme or use of the system, you should contact your administrator on Mentoring.yh@hee.nhs.uk

6.2. Unable to Log In

If you cannot login to your account, the most likely reason is that your username or password is incorrect, or your account has been locked. For example, if you enter your password incorrectly 5 times then your account will be locked, you will need to ask the Administrator to unlock your account.

If you cannot log in then check you are using the right username and double-check your password is correct (check caps lock is off and check any upper/lower case characters – sometimes a lower case "L" can look like the number "1" or the letter "I"). If you still cannot 'log in' then contact your administrator (details above).

6.3. Forgotten Password

If you forget your password, click on the "**Forgotten Password?**" link on the Login page. You will be asked to enter your username and to confirm the email address held within the system. A new password will then be sent to the email address registered. If this is the incorrect email address, then you will need to ask an administrator to reset your password.

6.4. Not Receiving Automated Emails

If you are not receiving any of the automated emails, the most likely reason is that they are going into your spam/junk folder. Check the following:

1. Check the email address on your user profile is correct

2. Check your spam/junk folders
3. Check your Notification settings

You should also add the email address (noreply@sfgmentornet.com) to your 'safe senders' list in your email system to ensure future messages are not put into your junk/spam folders.
