

## FRCP Requirements

### Complete Complex treatments and clinical activity logs - activity should include :

- Twelve indirect restorations (e.g. crowns, inlays, onlays). To include at least one of each type, if possible
- Two bridges. To include one conventional bridge, if possible
- Twelve acrylic prostheses
- Two Co-Cr prostheses
- Twelve endodontic cases – to include both single-rooted (incisors and/or canines) and multi-rooted endodontic cases (molars and/or premolars) (x4 molar endodontics procedures are recommended)
- Four extractions of special difficulty (which may involve bone removal and/or flaps): one undertaken as SLE (DOP or mini-CEX) with ES,

Assessment	Minimum Requirement	Notes
<b>Significant Events</b>	Reporting required in e-portfolio and ESS' Structured Reports	<ul style="list-style-type: none"> <li>• Panels will take account of the evidence and its relevance to Satisfactory Completion in reaching their recommendations</li> </ul>
<b>Complaints</b>	Reporting required in e-portfolio and ESS' Structured Reports	<ul style="list-style-type: none"> <li>• Panels will take account of the evidence and its relevance to Satisfactory Completion in reaching their recommendations</li> </ul>
<b>Sickness absence</b>	Reporting required in e-portfolio and ESS' Structured Reports	<ul style="list-style-type: none"> <li>• Panels will take account of the evidence and its relevance to Satisfactory Completion in reaching their recommendations</li> </ul>
<b>Annual leave</b>	Reporting required in e-portfolio and ESS' Structured Reports	<ul style="list-style-type: none"> <li>• Annual leave should be taken in accordance with the national FD Contract and any NHSE Local Office/Deanery requirements</li> </ul>
<b>Clinical Audit</b>	Two audit cycles to be completed	<ul style="list-style-type: none"> <li>• Evidence confirmed by TPD/ES</li> </ul>
<b>MSF(s)</b>	Completed by ESR and IRCP (and prior to FRCP if required)	<ul style="list-style-type: none"> <li>• Must include ES(s), FD's Dental Nurse, Practice Receptionist</li> <li>• Repeated in Months 8 or 9 if required by IRCP Panel</li> </ul>
<b>PSQ(s)</b>	Completed by IRCP (and prior to FRCP if required)	<ul style="list-style-type: none"> <li>• Minimum of 20 submitted forms required</li> <li>• Repeated in Months 8 or 9 if required by Interim Panel</li> </ul>
<b>Study Day attendance</b>	All NHSE Local Office/Deanery Study Days (or approved alternatives) attended, recorded and evaluated reflectively	<ul style="list-style-type: none"> <li>• Normally 30 Study Days in 12 months period</li> <li>• Study Days held after Final RCP recommendation must be attended and evaluated for Certificate of Satisfactory Completion of DFT to be issued</li> </ul>
<b>Educational Supervisor Protected Learning time Programme</b>	All Tutorials required by NHSE Local Office/Deanery completed, recorded and evaluated reflectively	<ul style="list-style-type: none"> <li>• Normally 40 Tutorials in 12 months period</li> <li>• Tutorials scheduled after Final RCP recommendation must be attended and evaluated for Certificate of Satisfactory Completion of DFT to be issued</li> </ul>

## **Portfolio Evidence**

### **1. Workplace based assessments**

A minimum of 18 ADEPTs and 10 DCbD should be completed prior to FRCP, these should cover all major clinical categories, to ensure your Educational Supervisor has enough evidence to make their recommendations for completion of DFT. Mult-source feedback should be published and PSQ information available.

### **2. Learning needs**

These should all be reviewed and if indicated signed off as complete, any unsigned off learning needs that the FRCP panel consider essential to confirm the indicated entrustment level could mean completion of DFT is delayed.

### **3. Clinical Experience Logs and UDAs**

Clinical experience logs should be completed for July, prior to FRCP panel days, this is to ensure all relevant clinical experience has been captured in the portfolio. The BSA Compass report should be uploaded to the portfolio to evidence UDA activity achieved, by FRCP it is expected this will be above 1400 UDAs, if activity is significantly below this then the FD should provide a reflection to indicate the reason behind this.

### **4. ES FRCP report and FD comments**

This report should be completed with your Educational Supervisor(s), with your own comments; without this evidence FRCP panels will be unable to reach a decision on completion of DFT.

### **5. PMLD evidence, tutorials and reflections**

All PMLD evidence should be present as confirmed through tutorials, study day attendance, online learning and personal reflections. A minimum of 10 reflections are expected by FRCP.

### **6. IRCP recommendations**

Please review IRCP panel reports and ensure any recommendations are met or if not, an explanation is provided.

## Final month of program

Following FRCP panels an Outcome will be awarded, the outcomes are below

- Outcome 6 : Satisfactory completion of DFT has been confirmed  
Outcome 3: Extension to DFT programme recommended  
Outcome 4: Released from DFT programme, without achieving all required competencies/EPAs  
Outcome 5: Incomplete evidence provided, an extension to training may be required or if linked to professionalism and Outcome 4 may be considered by the panels

**All FDs who achieve Outcome 1 (or 6) will be issued with a satisfactory completion certificate on the portfolio which should be downloaded and stored safely for evidence supporting full inclusion on the NHS Performer Lists.**

Completed	Portfolio Task
	<b>Completion and update Regular Portfolio Tasks</b>
	<b>Ensure all Study Day CPD certificates have been downloaded to support own PDP and GDC CPD evidence</b>
	<b>Download Completion Certificate and confirm with PCSE change in performer number status (removing restrictions linked to DFT program) for DFT/JDFCT only</b>
