

Name:

Jodie Montgomery-Cranny

Job Title:

**Leadership Fellow in Managed
Clinical Network for Oral Medicine**

Supervisor:

Dr Alan Mighell

Aims of Post:

To develop a Managed Clinical Network (MCN) in Oral Medicine for the region as part of a multi-disciplinary team, and
To grow and develop the personal skills that will be essential for your future role as a consultant and healthcare leader.

**Summary of Post:**

We have successfully created a MCN for the whole of Yorkshire and the Humber during my Fellowship year. It was a slower process than I expected but fell within the timeframe that my supervisor had in mind. Our specialty is tiny and so there are only two units across the region which have Oral Medicine units and one Trust accepted the MCN with open arms, the other one provided resistance from the word go.

Achievements:

Successful completion of the PG Cert in Medical Leadership at Sheffield Hallam University.

Invited speaker at the British Society of Oral Medicine Annual Scientific Meeting in Dublin on my project and fellowship.

Paper going to print later this year in the British Dental Journal about the project with further articles presenting our data planned.

The MCN is up and running for the region.
