School of Paediatrics Newsletter March 2020

Do you have news to share? Contact the [School of Paediatrics website](#)

[September Newsletter](#) [October Newsletter](#) [November Newsletter](#) [December Newsletter](#)

[January Newsletter](#) [February Newsletter](#)

Welcome to the HEYH School of Paediatrics newsletter. Please contact the team if you have news to share or want to contribute. The Newsletter will be updated on a monthly basis and aims to highlight news and events from across the region and country.

Why Paediatrics, Why Yorkshire?

New presentation coming soon showing the great reasons to do paediatric training in Yorkshire!

Leading the way in paediatrics

Feedback

The School of Paediatrics wants to improve the feed back given to trainees. Following the GMC survey, feedback was the area scored highest by paediatric trainees in HEYH.

We want to improve this and are enouraging trainers across the region to focus on this practice over the next year.

Trainees in Leeds/Hull have investigated this locally and suggestions for change were:

3. Regular time for feedback- consider drop in sessions.

RCPCH Trainee Paediatric Research Network

Are you a paediatric trainee passionate about research, or looking to get involved? Join our Task and Finish Group to set up a Trainee Paediatric Research Network!

To support trainees to undertake research, the RCPCH is convening a Task and Finish Group to lead on developing an overarching Trainee Paediatric Research Network. This network will aim to bring together existing regional paediatric research networks across the UK to:

- Increase opportunities for trainees to conduct research
- Provide peer support and guidance
- Support trainees to develop research skills
- Allow conception and coordination of pan-UK projects

The Task and Finish Group is open to applications from paediatric trainees who are keen to help develop this network.

Applications to the Task and Finish Group close on Monday 16 March 2020, 09:30.

For further information and to apply, visit: www.rcpch.ac.uk/trainee-research-network.

ARCP

Due to Covid-19 ARCPs will be disrupted. Face to face ARCPs will now happen remotely.

Priority will be given for essential ARCP (Anticipated outcome 6s).

There will be flexibility with the requirements, but an ES report will be particularly important.

This may be updated as the situation changes.

Please visit the [ARCP](#) page for updated 2020 ARCP checklists.

The most significant change is the addition of SCRIPT modules to the level 1 checklist

TPD Clinics

All Paediatric TPDs can be contacted for questions and advice regarding training.

TPD Clinics are being held across the region. Click on the link for more information.

Please help complete Trainee Surveys- [Click here for list on ongoing surveys](#)

Upcoming Events

May events are being cancelled so please bear this in mind.

[Paediatric Support](#) 10th July/17th September/16th November, Barnsley Hospital
