		<p>We work closely alongside our Orthodontic department who provide complex treatment to patients with facial deformity and cleft lip/palate. As an OMFS DCT you will not directly provide orthodontic care for patients, but you will have opportunities to complete audits/quality improvement projects with our orthodontic colleagues.</p> <p>There are ample opportunities to develop surgical skills and undertake dentoalveolar procedures involving flap raising/bone removal under local anaesthetic, sedation and general anaesthetic.</p> <p>We have a very strong ethos regarding clinical governance and you will have the opportunity to undertake and publish audits/case reports. You will also take part in monthly meetings where there are opportunities to present.</p>
