

***ICHG is a specialty group of the Royal College of
Paediatrics and Child Health***

ICHG advocates for better child health around the world and supports the education and training of global child health leaders of tomorrow

ICHG meets twice a year (normally in November and April) for academic meetings to present research and evidence in global health. Its 3 main areas of focus are on:

- 1. Training and education*
- 2. Advocacy*
- 3. Supporting professionals and networks*

Winter Meeting 2018

Survive, Thrive, Transform

The theme of this year's conference is the 2016 – 2030 WHO
Maternal, Child and Adolescent Health Strategy

Alder Hey Children's Hospital, Liverpool

19th November

<http://www.internationalchildhealthgroup.org/2018-meeting>

Early bird discounts are currently available for consultants, trainees and non-medical professionals!

On sale now.

Abstract submissions are also open! We invite you to submit 300 words for presentation at the conference, with applications closing on 11/9/18.

Cross-continental - Live link to Malawi

We'll be running the event simultaneously between Blantyre, Malawi & Liverpool, UK via video-link. We hope to encourage exchange of ideas between professionals in these diverse settings for improvement of global child health.

Why This Theme

Substantial gains were achieved in child survival in the era of the Millennium Development Goals however much unfinished work remains, particularly in relation to reducing neonatal mortality.

In this, the era of the Sustainable Development Goals there is a shift in our focus from survival alone to ensuring optimal child development and wellbeing. We hope to explore this with a day of expert speakers and engaging workshops, allowing for fascinating insights and stimulating discussions.

Speakers

The conference will feature a line up of world-leading speakers from Alder Hey, the University of Liverpool, the Liverpool School of Tropical Medicine, the London School of Hygiene and Tropical Medicine and the University of Malawi.

Professor Joy Lawn (pictured) from the London School of Hygiene and Tropical Medicine as well as Professor Stephen Allen from the Liverpool School of Tropical Medicine, Dr Queen Dube from Queen Elizabeth Children's Hospital, Malawi and many others! Full speaker's list is available online.

Speakers in Liverpool

Dr Helen Nabwera

Helen is a Senior Clinical Research Associate in Neonatology in the Centre for Maternal and Newborn Health at the Liverpool School of Tropical Medicine

Professor Atif Rahman

Atif is Professor of Child Psychiatry at the University of Liverpool and chairs the Academic child mental health unit at Alder Hey Children's Hospital, Liverpool

In the afternoon there is a choice of interactive workshops, run by the RCPCH Global Links programme, the BMA Humanitarian Fund and Save the Children

The Venue

Uniquely, our partner, Alder Hey Children's Hospital in Liverpool has it's own International Child Health department
