

Below outlines the SPIN modules available within the School of Paediatrics in Yorkshire and the Humber and which Departments in the region can facilitate these. Please check the RCPCH website for further details on requirements for SPIN modules and discuss your requirements for a SPIN module you wish to pursue early with your TPD. SPIN modules can be requested via the trainee post preferencing survey in December and will be agreed once allocations have been made in May. If a SPIN post is not available in your area a request can be made to work in a different area for the duration of the SPIN post. Version July 2021; to be updated July 2022
