

Transfer of Information

Due to the high quantity of RO to RO transfer of information requests received by Health Education England's local teams (and deaneries in the UK's other devolved nations), COPMeD has agreed a TOI process for trainees (or recent former trainees) <https://www.copmed.org.uk/publications/revalidation>

The standard vehicle for transfer of information about a trainee doctor is the doctors' most recent ARCP outcome form. This form includes a comment on whether or not there were any known unresolved concerns about the doctor's fitness to practise at the time of the review.

The doctors most recent ARCP outcome form should be requested directly from the doctor in question who will have been provided with a copy of this in either digital or paper format. We are unable to provide ARCP outcome forms or complete individual RO to RO TOIs unless there are exceptional circumstances.
